Your Touchstone Energy® Cooperative 

Engineering Intern-Temporary Position

JREC is looking for Temporary 1,000-hour Engineering & Operations Intern who can perform the following essential functions:

- Development of SCADA displays.
- Bringing in SCADA data from NOVA circuit breakers as deployed by operations.
- Development of losses reporting.
- Development of monthly substation/distribution system operations reports.
- Mapping confirmations, updates, and record population.
- Must courteously and effectively interact with landowners, members, government officials, crew members, lead person, foreman/forewomen, and supervisors via verbal and written communication.
- Adhere to safety rules, programs, practices, and understand and abide by all Cooperative policies and procedures.

Physical Demands

- Must productively perform work in both a controlled office environment and an outside environment with challenging heat, wet, vegetation, wildlife, and insects.
- Position requires the ability to hear, use near and far vision, kneel, bend, crouch, crawl, twist upper body, reach, and walk over uneven terrain, and any other requirement associated with power line construction and right-of-way clearing to observe work.
- Must be able to frequently lift materials and equipment weighing up to 50 pounds.

Experience and Education:

One or more years of college, technical school, or military training emphasizing math and science required; two or more years preferred.

Experience with Excel spreadsheets, chart development, keyboarding and office skills required.

Experience with drawing/graphics programs, Visio, or AutoCAD preferred.

Top candidate will also have taken classes in three phase electric power systems, experience in Excel pivot table and database development, and with computer networking.

Must possess and maintain a valid state driver's license.

Candidates will be required to pass a physical as well as a background and drug screen.

Compensation:

Competitive wage
